

DesignPH Martin Residence

Actual DesignPH sketch up file should be uploaded. This is an example of how it is ideally set up

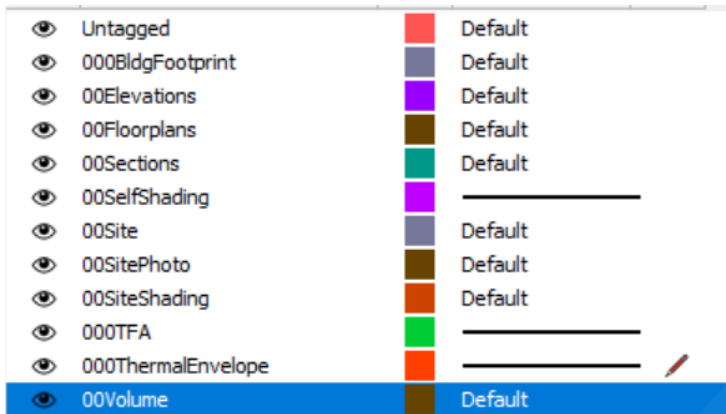

Figure 1: Multiple Layer (tags) for difference components

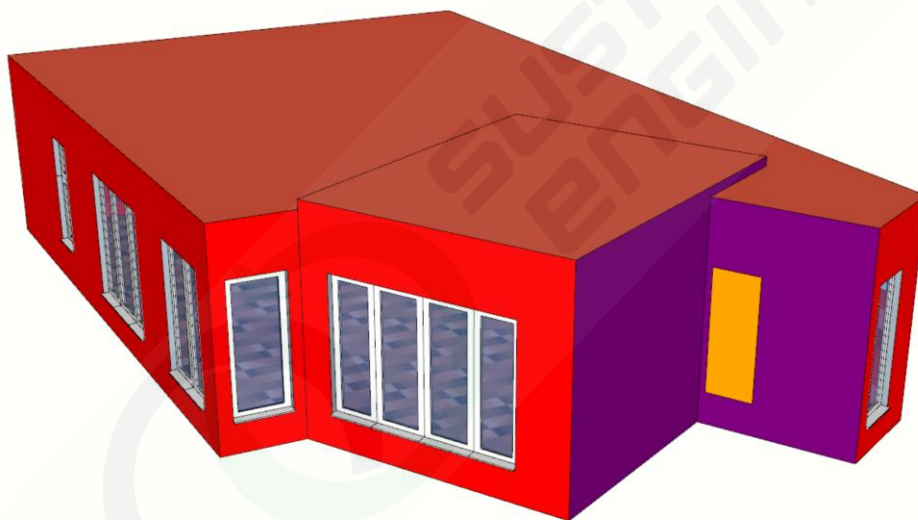

Figure 2: Thermal Envelope

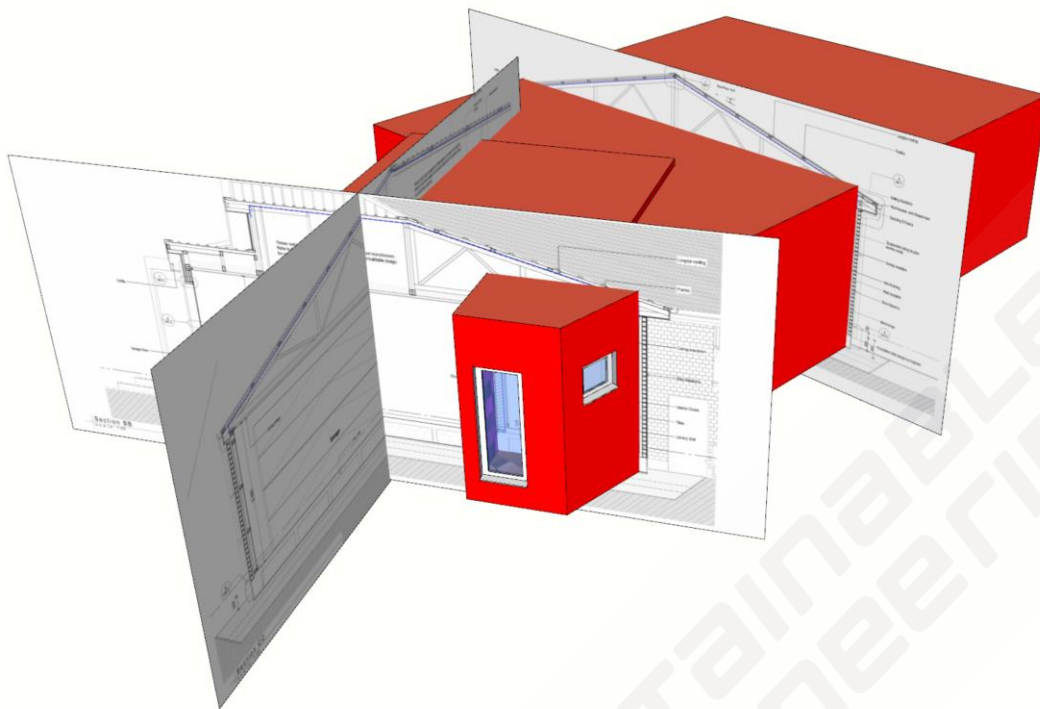

Figure 3: Sections showing where the thermal envelope ends. Ideally DWGs but can be pdfs

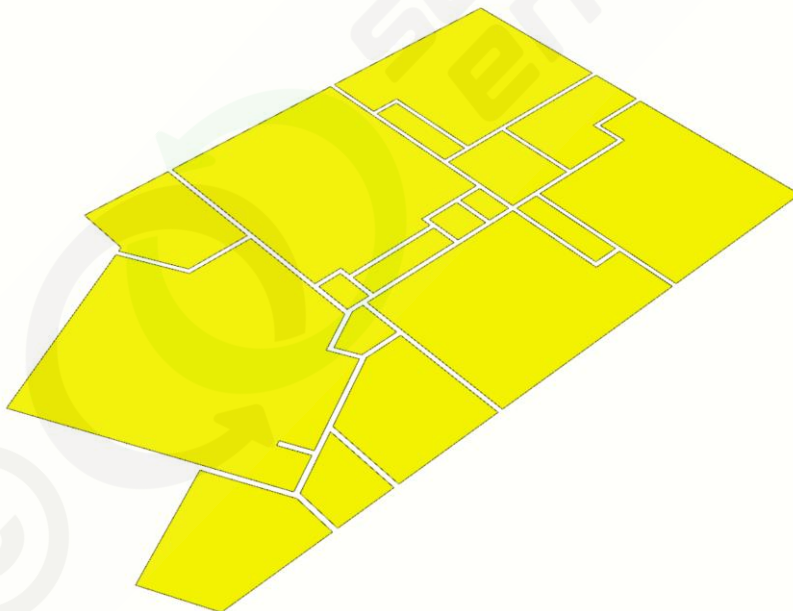

Figure 4: TFA on a separate layer

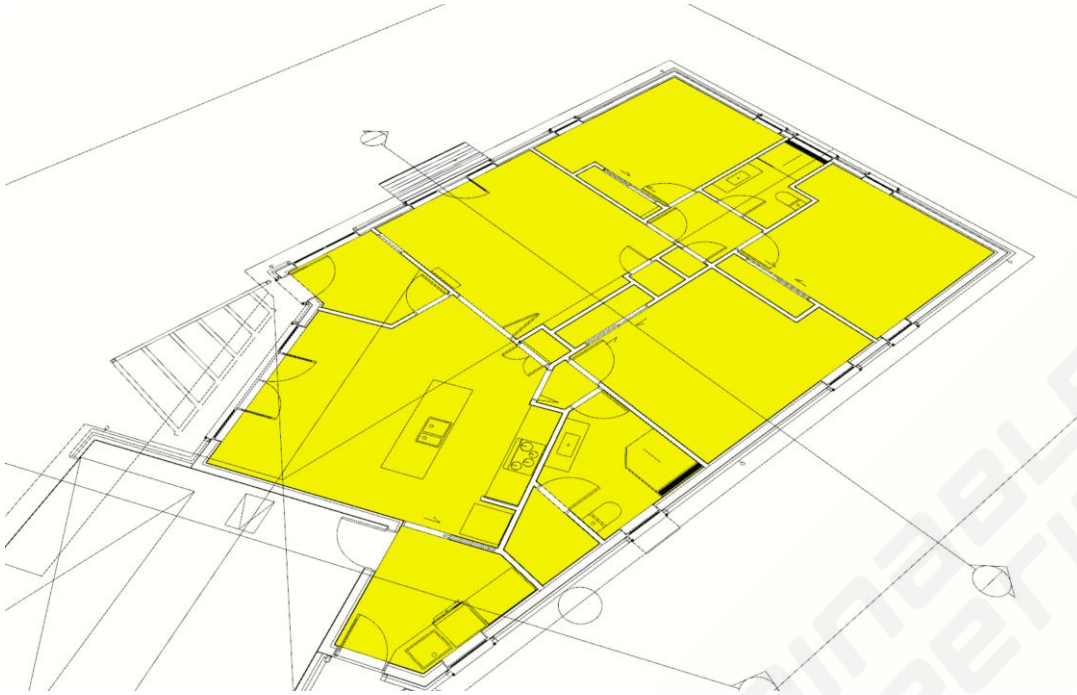

Figure 5: DWG of floor plan to check it against

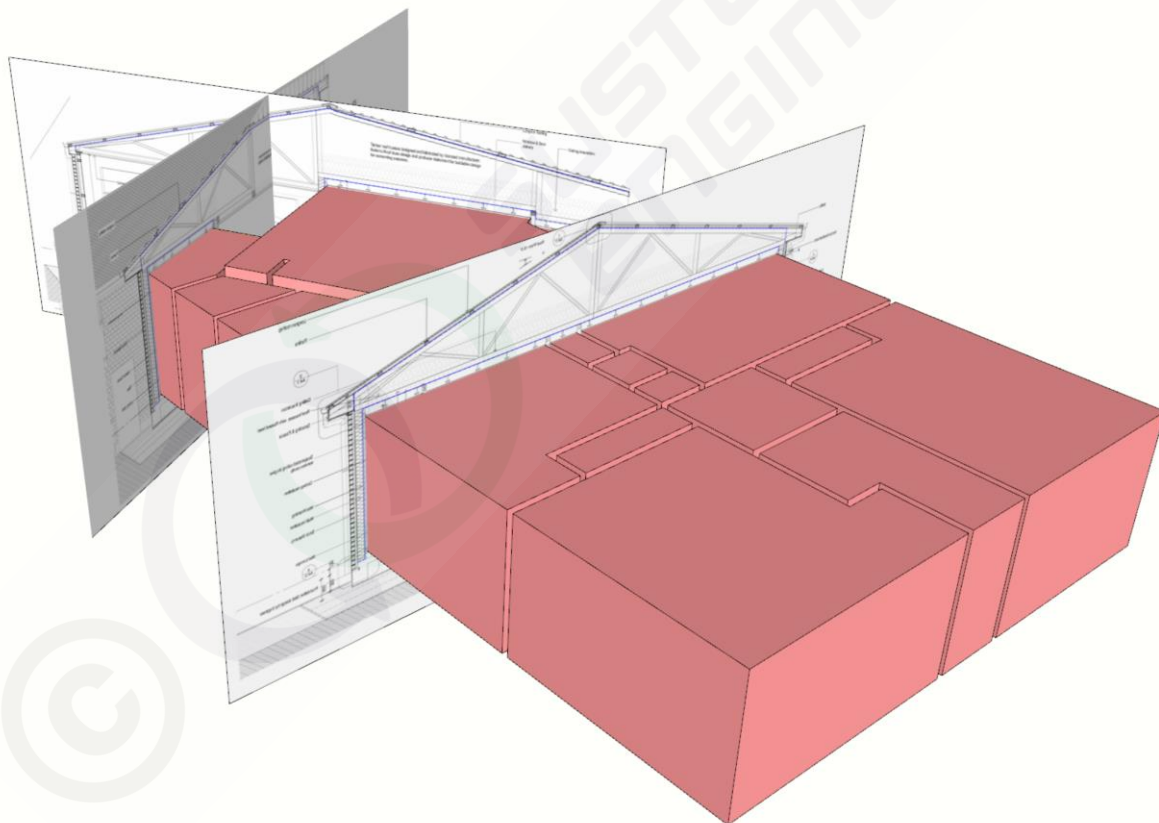

Figure 6: Volume (sections on a different layer)

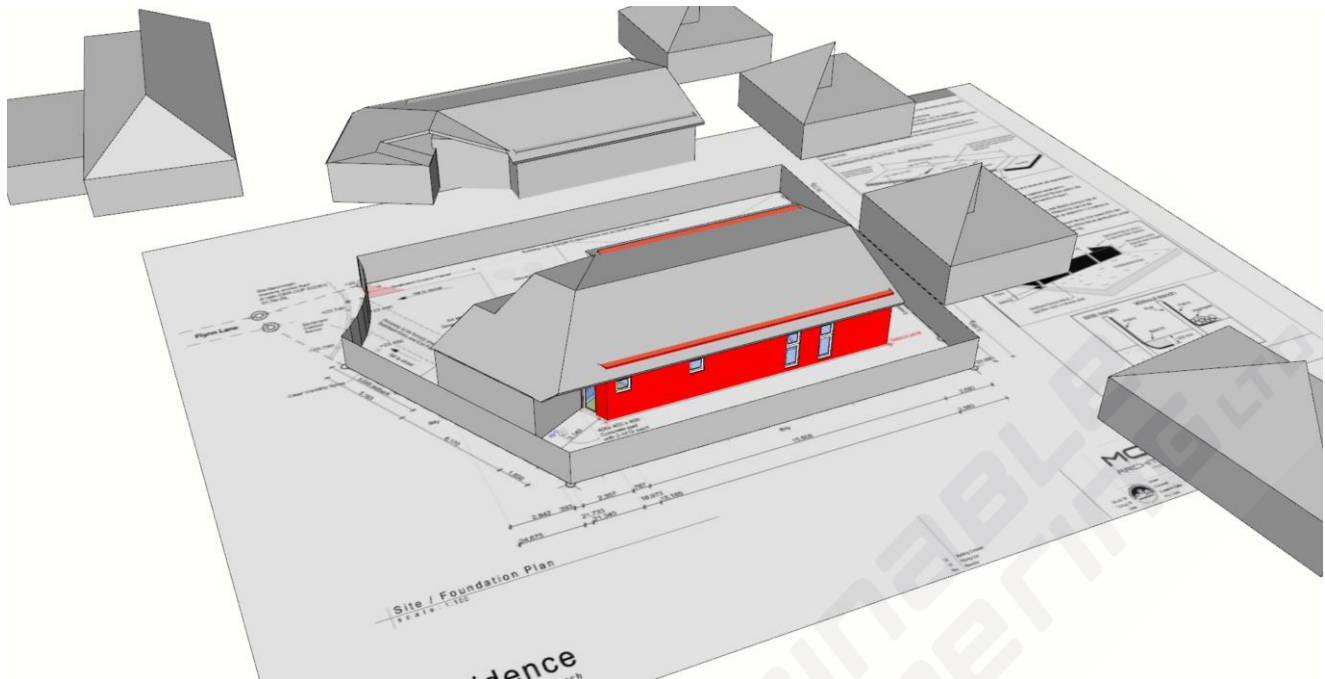

Figure 7: Site Plan PFD or DHW and surrounding shading

Figure 8: Site image from google maps, any terrain/horizon shading entered
